Tanks that fail a tightness test that cannot be reconciled shall be taken out of service and removed in accordance with the requirements of 527 CMR 9.00, as amended.
- D. All steel underground storage tanks or storage facilities shall be subject to mandatory tightness testing 15 years after the date of installation, and annually thereafter. Owners or operators may request a variance from the testing requirement if they demonstrate to the Health Department that such tests are not appropriate because of the presence of monitoring devices, double-walled construction, or equivalent safety precautions. The Health Department, after reviewing the information, may determine that the underground tank or storage facility does not represent a threat to ground or surface water quality. Such variance shall be required yearly. Nothing in this subsection shall be construed to replace or supersede the testing requirements of 527 CMR 9.00 or any other federal, state or local law or regulation.
- E. All steel underground storage tanks exempted under the provisions of §61.13.D herein must be tested for tightness at 20 years after installation, and every third year thereafter. All tanks constructed of fiberglass or other materials must be tested at 20 years after installation and every third year thereafter.
- F. All underground residential fuel storage tanks used to store No. 2 fuel oil must be tested for tightness at 20 years after installation and every third year thereafter.
- G. Where the Health Department has probable cause to believe that an underground tank or storage facility has caused a leak or a discharge to occur, said Board may order the testing for tightness of such tank or storage facility.
- H. If the testing required by this section indicates that a leak or discharge has occurred, the owner or operator shall proceed in accordance with §61.8, herein.
- I. Underground tanks or storage facilities shall have appurtenances prominently labeled to provide notice as to the types of hazardous materials stored within.

- J. All owners or operators of UST systems must provide the name and contact information for the Class A, B, or C Operator responsible for maintaining the tank as required in 310 CMR 80.02 and consistent with the requirements of 527 CMR 9.
- K. **Underground storage tank removal.** Removal procedures for tanks used for storage of hazardous, flammable, or combustible material shall follow the requirements of 527 CMR 9.00 and 502 CMR 3.00. Prior to removal of a tank, the Fire Chief and Health Department shall be notified and the Fire Chief shall designate an inspector to oversee the tank removal unless MassDEP personnel are present. If there is any evidence of a release from an underground storage tank backfilling cannot take place until the owner has contracted a Licensed Site Professional (LSP) and all future work must be conducted under the requirements all applicable federal, state and local laws, rules and regulations, including but not limited to the Massachusetts Contingency Plan, 310 CMR 40.0000.
- L. **Removal of all appurtenances when removing tanks.** When underground storage tanks are excavated and removed, all appurtenant devices including fill pipes, vents, and supply lines shall also be removed.
- M. **Repair of residential tanks.** No residential underground heating oil storage tanks shall be repaired and placed back in service. Any tank which is in need of repair shall be removed and replaced by an above ground storage tank.

§61.14. Underground storage of flammable or combustible products and hazardous materials or hazardous wastes or special wastes.

- A. **Underground storage requirements.** Owners or operators storing flammable or combustible materials in underground storage systems shall obtain a permit from the Fire Chief in addition to the permit from the Health Department. Owners and operators storing hazardous materials or wastes or special wastes underground which are not flammable or combustible need only obtain a permit from the Health Department.
- B. **Change of material in storage tank.** Prior to any change in the material stored in an underground tank, such change of material shall be approved by the Health Department and (in the case of flammable or combustible materials) by the Fire Chief. Confirmation by the tank manufacturer that such a change in material would be compatible with the tank type shall also be submitted, in writing, to the Health Department and Fire Chief.
- C. **Underground storage tank construction.** All underground storage tanks shall be designed to minimize the risk of corrosion and leakage, and shall conform to all construction and installation requirements under applicable state and federal law. All new underground storage systems for hazardous materials or waste or special waste shall meet the standards for new underground hazardous waste tanks set forth in 310 CMR 30.693 and 30.694. Tanks for storage of hazardous wastes or flammable or combustible materials shall meet the requirements of 527 CMR 9.00.

§61.15. Groundwater and surface water protection.

- A. **Groundwater Protection Areas.** New underground storage tanks are prohibited in a Groundwater Protection Area. Existing underground storage tanks in the Groundwater Protection Area shall apply for a permit from the Board of Health immediately upon the effective date of this Bylaw, which will require demonstration of no other option for storage of fuel or other material. Underground storage tanks in Groundwater Protection Areas must be fiberglass tanks with double-walled construction and interstitial leak monitoring. The Health

Department may require installation of monitoring wells near the tank based on site-specific conditions.

- B. **Flood Zones.** Underground storage tanks shall not be located the Flood Zone except by permit from the Board of Health and must meet the same requirements as in 61.15A herein.

§61.18. Abandonment and other concerns.

The holder of any license issued pursuant to M.G.L. ch. 148 for underground storage of any liquid hazardous material shall notify the Health Department and the Fire Chief whenever the provisions of said license cease to be exercised. Upon such notification, the Fire Chief shall prescribe appropriate action under M.G.L. ch. 148 and applicable state regulations.

§61.19. Variances.

The Board of Health may vary the application of any provision of this bylaw, unless otherwise precluded by law, when in its opinion; the applicant has demonstrated that an equivalent degree of environmental protection required under this bylaw will still be achieved. The applicant, at his/her own expense, must notify all abutters by certified mail at least ten days before the hearing at which such variance request shall be considered. The notification shall state the variance sought and the reasons therefor. The Board of Health shall also notify, within 14 days of receipt of a variance request, the Fire Chief, Conservation Commission, Planning Board, and Building Inspector, of any variance requested under this Section, for their response in writing. - C. The Board of Health may suspend or revoke any permit or license issued pursuant to this Bylaw for any violation of this Bylaw or for any violation of any other applicable federal, state or local law, rule or regulation. Such revocation or suspension may take place after a hearing held by the Board of Health of which the permit or license holder is given seven (7) days written notice. Such notice shall be deemed given upon mailing same, certified mail, return receipt requested, to the address listed on the permit application.
- D. Any person who violates any provision of this bylaw shall be punished by a fine of not more than \$300 as allowed under M.G.L. ch. 40 §21. [Adopted 5-11-98 Adj. ATM Art. 25. Amendments noted where applicable.]

§ 80.1. Intent and purpose.

This bylaw is adopted for the purpose of preserving and protecting significant buildings within the Town which constitute or reflect distinctive features of the architectural, cultural, political, economic, or social history of the Town; to encourage owners of such buildings to seek out persons who might be willing to purchase, preserve, rehabilitate, or restore such buildings rather than demolish them. To achieve these purposes the Westford Historical Commission (herein after the “Commission”) is empowered to advise the Building Commissioner with respect to the issuance of permits for demolition of significant buildings.

§ 80.2. Definitions. [Amended 5-5-07 ATM Art. 17]

Applicant – Any person or entity who files an application for a demolition permit. If the applicant is not the owner of record of the premises upon which the building is situated, then owner must indicate on or with the application his/her assent to the filing of the application.

Application – An application for the demolition of a building.

Building – Any combination of materials capable of being used as shelter for persons, animals or property.

Commission – The Westford Historical Commission.

Commissioner – The Westford Building Commissioner.

Demolition permit – The permit issued by the Commissioner as required by the state building code for demolition or removal of a building or structure.

Historically significant building or structure - Any building or structure which is:

§ 80.3. Regulated buildings and structures. [Amended 5-5-07 ATM Art. 17]

- A. A building or structure listed on, or is within an area listed on, the National Register of Historic Places or the State Register of Historic Places, or the subject of a pending application for listing on either of said Registers; or

- C. A building or structure included in the Inventory of the Historic Assets of the Commonwealth, or designated by the Commission for inclusion in said inventory including those buildings listed for which complete surveys may be pending; or

- D. A building or structure determined by vote of the Commission to be historically or architecturally significant in terms of period, style, and method of building construction based on the following criteria:
 - a. Properties listed or pending their listing on the State Register of Historic Places and the Inventory of Historic Assets of the Commonwealth for the Town of Westford.
 - b. Properties in existence in or before a rolling 85 year timeframe based upon the calendar year in which the demolition permit application was filed with the Building Commissioner.
 - c. Properties that appear on the 1855 Symmes Maps.
 - d. No demolition permit shall be issued for a regulated building or structure without full compliance with the provisions of this bylaw.

§ 80.4. Procedure. [Amended 5-5-07 ATM Art. 17]

- A. The Commissioner shall forward a copy of each demolition permit application for all regulated buildings or structures identified in section 80.3 of this bylaw to the Commission within 7 days after the filing of such application. No demolition permit shall be issued at that time.
- B. Following the receipt of such application, the Commission shall determine within 45 days after the Commission's next regularly scheduled meeting whether the building or structure is historically significant. The date of a regularly scheduled Commission meeting shall be defined as the third Wednesday of the month. The applicant for the permit shall be entitled to make a presentation to the Commission if he/she makes a timely request (at least 7 days prior to the scheduled meeting date) in writing to the Commission.
- C. If the Commission determines that the building or structure is not historically significant, it shall so notify the Commissioner and the applicant in writing and the Commissioner may issue a demolition permit.
- D. If the Commission determines that the building or structure is historically significant, it shall notify the Commissioner and the applicant in writing that a demolition plan review must be made prior to the issuance of a demolition permit. If the Commission fails to notify the Commissioner and the applicant of its determination within 30 days after its determination in 80.4.B, then the building or structure shall be deemed not historically significant and the Commissioner may issue a demolition permit.
- E. Within 30 days after the applicant is notified that the Commission has determined that a building or structure is historically significant, the applicant for the permit shall submit to the Commission 7 copies of a demolition plan which shall include the following information:
 - a. a map showing the location of the building or structure to be demolished with reference to lot lines and to neighboring buildings and structures

- F. The Commission shall hold a public hearing within 30 days of receipt of the demolition plan referenced in section 80.4.D, with respect to the application for a demolition permit, and shall give public notice of the time, place, and purposes thereof at least 14 days before said hearing in such manner as it may determine, and by mailing, postage prepaid, a copy of said notice to the applicant, to the owners of all adjoining property and other property deemed by the Commission to be materially affected thereby as they appear on the most recent real estate tax list of the Board of Assessors, to the Planning Board, to any person filing written request for notice of hearings, such request to be renewed yearly in December, and to such other persons as the Commission shall deem entitled to notice. The costs associated with the preparation of abutters list and notifications as well as publication in a local newspaper will be borne by the Demolition Permit Applicant. Within 60 days after its receipt of the demolition plan, the Commission shall file a written report with the Commissioner on the demolition plan which shall include the following:
- a. a description of age, architectural style, historic association and importance of the building or structure to be demolished
 - b. a determination as to whether or not the building or structure should preferably be preserved.
- G. The Commission shall determine that a building or structure should preferably be preserved only if it finds that the building or structure is an historically significant building or structure which, because of the important contribution made by such building or structure to the Town's historical and/or architectural resources, it is in the public interest to preserve, rehabilitate or restore.
- H. If, following the demolition plan review, the Commission does not determine that the building or structure should preferably be preserved, or if the Commission fails to file a report with the Commissioner within the time limit set out in section 80.4 above, then the Commissioner may issue a demolition permit.
- I. If, following the demolition plan review, the Commission determines that the building or structure should preferably be preserved, then the Commissioner shall not issue a demolition permit for a period of 6 months from the date of the filing of the Commission's report unless the Commission informs the Commissioner prior to the expiration of such 6-month period that it is satisfied that the applicant for the demolition permit has made a bona fide, reasonable and unsuccessful effort to locate a purchaser for the building or structure who is willing to preserve, rehabilitate or restore the building or structure, or has agreed to accept a demolition permit on specific conditions approved by the Commission. During the 6-month review period, the Commission shall invite the applicant to participate in an investigation of alternatives to demolition.

§ 80.5. Determination of applicability.

An owner of a regulated building or structure may petition the Commission for a determination of applicability of the bylaw. Within 30 days after its determination in 80.4.B, the Commission shall determine whether the building or structure is historically significant. The applicant for the permit shall be entitled to make a presentation to the Commission if he/she makes a timely request in writing to the Commission. The determination by the Commission of whether a regulated building or structure is historically significant shall be made in writing signed by the Commission and shall be binding on the Commission for a period of 5 years from the date thereof.

§ 80.6. Emergency demolition.

If the condition of a building or structure poses a serious and imminent threat to public health or safety due to its deteriorated condition, the owner of such building or structure may request the issuance of an emergency demolition permit from the Commissioner. If possible and as soon as practical after the receipt of such a request, the Commissioner shall arrange to have the property inspected by a board consisting of himself/herself, the Chairman of the Commission, the Chairman of the Board of Health, and the Chief of the Fire Department, or their respective designees. After inspection of the building or structure and, to the extent possible, consultation with this Board, the Commissioner shall determine whether the condition of the building or structure represents a serious and imminent threat to public health or safety and whether there is any reasonable alternative to immediate demolition of the building or structure which would protect the public health or safety. If the Commissioner finds that the condition of the building or structure poses a serious and imminent threat to public health or safety, and that there is no reasonable alternative to the immediate demolition permit under the provisions of this section 80.6 they shall prepare a written report describing the condition of the building or structure and the basis for his/her decision to issue an emergency demolition permit with the Commission. Nothing in this section 80.6 shall be inconsistent with the procedures for the demolition and/or securing of building and structures established by chapter 143, section 6-10 of the Massachusetts General Laws. In the event that a Board of Survey is convened under the provisions of section 8 of said chapter 143 with regard to any building or structure identified in section 80.3 of this bylaw, the Commissioner shall request the Chairman of the Commission or his/her designee to accompany that Board of Survey during its inspection. A copy of the written report prepared as a result of such inspection shall be filed with the Commission.

§ 80.7. Administration.

The Commission may adopt such rules and regulations as are necessary to administer the terms of this bylaw. The Commission is authorized to adopt a schedule of reasonable fees to cover the costs associated with the administration of this bylaw. Administrative and advertising fees shall be borne by the petitioner/applicant. The Commission may delegate authority to a municipal employee to assist in the collection of administrative and advertising fees from the Applicant.

The Commission may review and revise its regulations and fee schedules from time to time, following an advertised public hearing. Any amendments to these regulations shall take effect upon filing a copy of the amendments with the Westford Town Clerk's Office.

§ 80.8. Non-compliance.

- A. The Commission and the Building Commissioner are each authorized to institute any and all proceedings in law or equity, as they deem necessary and appropriate to obtain compliance with the requirements of this bylaw, or to prevent a violation thereof.
- B. No building permit shall be issued with respect to any premises upon which a significant building has been voluntarily demolished in violation of this bylaw for a period of 22 months after the date of the completion of such demolition. As used herein "premises" includes the parcel of land upon which the demolished significant building was located
- C. Upon a determination by the Commission that a building is a preferably-preserved significant building, the owner shall be responsible for properly securing the building, if vacant, to the satisfaction of the Building Commissioner. Should the owner fail to secure the building, the loss of such building through fire or other cause shall be considered voluntary demolition for the purposes of section 80.6.

- D. Anyone who demolished a building or structure identified in section 80.3 of this bylaw without first obtaining and complying fully with the provisions of a demolition permit, shall be subject to a fine of not less than \$100 not more than \$300.

§ 80.9. Severability.

If any section, paragraph or part of this bylaw be for any reason declared invalid or unconstitutional by any court authority, every other section, paragraph and part shall continue in full force and effect.

The Planning Board, in order to protect the due process rights of those accused of violating this chapter and to ensure the predictability and uniformity of enforcement actions made pursuant to this section, shall adopt more detailed regulations and guidelines for the purpose of holding enforcement hearings and of implementing and carrying out the provisions of this section.

§ 145.10. Severability.

If any section or subsection of this chapter is found to be unconstitutional or contrary to the laws of the Commonwealth of Massachusetts or the United States of America then that section or subsection shall be stricken herefrom, and the remainder of this chapter shall remain in full force and effect.

Chapter 147: Stormwater Management

[Adopted 5-10-08 ATM Art. 18]

§ 147.1. Purpose.

- A. Increased and contaminated stormwater runoff associated with developed land uses and the impacts of soil erosion and sedimentation are known to cause:
- Impairment of water quality and flow in lakes, ponds, streams, rivers, wetlands, and groundwater;
 - Contamination of drinking water supplies;
 - Erosion of stream channels;
 - Alteration and destruction of aquatic and wildlife habitat;
 - Flooding; and
 - Overloading or clogging of municipal storm drain systems.
- B. The objectives of this bylaw are to require practices to control the flow of stormwater from new and redeveloped sites into the Westford storm sewer system in order to:
- Prevent pollutants from entering and discharging from the Westford municipal separate storm sewer system ;
 - Control the volume and rate of stormwater runoff resulting from land disturbance activities;
 - Ensure that soil erosion and sedimentation control measures and stormwater runoff control practices are incorporated into the site planning and design process;
 - Prevent flooding;
 - Promote infiltration and recharge of groundwater;
 - Encourage the use of low impact development techniques such as reducing impervious cover and the preservation of green space and other natural areas, to the maximum extent practicable and allowable under Westford's Subdivision Rules and Regulations;
 - Protect groundwater and surface water from degradation;
 - Control waste such as discarded building materials, concrete truck washout, chemicals, litter, and sanitary waste at a construction site;
 - Ensure adequate operation and maintenance of structural stormwater best management practices so they work as designed, both long-term and during construction;
 - Comply with state and federal statutes and regulations relating to stormwater discharges; and
 - Establish Westford's legal authority to ensure compliance with the provisions of this bylaw through inspection, monitoring, and enforcement.

§ 147.2. Definitions.

The following definitions shall apply in the interpretation and enforcement of this bylaw:

Alter shall mean any activity, which will measurably change the ability of a ground surface area to absorb water or will change existing surface drainage. Alter may be similarly represented as "alteration of drainage characteristics," and "conducting land disturbance activities."

Approval Not Required (ANR) shall mean a plan of land that does not require approval under the Subdivision Control Law of Massachusetts (Massachusetts General Laws, chapter 41, sections 81K through 81GG).

Common Plan of development shall mean any announcement or piece of documentation (including a contract, public notice or hearing, advertisement, drawing, plan, or permit application, etc.) or physical demarcation (including boundary signs, lot stakes, surveyor marking, etc.) indicating imminent or future plans to disturb earth regardless of how many phases or how long it will take to complete. Under this bylaw, a facility is ***no longer considered a common plan*** if the following criteria are met:

- a) The original plan, including modifications, was substantially completed with less than one acre of the original common plan remaining (i.e., <1 acre of the common plan was not built out at the time); **and**
- b) There was a clearly identifiable period of time (2 years or more) where there was no ongoing construction, including meeting the criteria for final stabilization.

Land Disturbance shall mean any action that causes a change in the position, location, or arrangement of soil, sand, rock, gravel or similar earth material. See also ALTER.

Low Impact Development Techniques shall mean stormwater management practices that are modeled after natural hydrologic features. Low impact development techniques manage rainfall at the source using uniformly distributed decentralized micro-scale controls. Low impact development techniques use small cost-effective landscape features located at the lot level.

Massachusetts Stormwater Management Standards shall mean the requirements described in the Massachusetts Stormwater Handbook, as they may be amended from time to time, that address water quality (pollutants) and water quantity (flooding, low base flow and recharge) by establishing standards that require the implementation of a wide variety of stormwater management strategies. These strategies include environmentally sensitive site design and Low Impact Development techniques to minimize impervious surface and land disturbance, source control and pollution prevention, structural Best Management Practices, construction period erosion and sedimentation control, and the long-term operation and maintenance of stormwater management systems. The Stormwater Management Standards have been incorporated in the Wetlands Protection Act Regulations, 310 CMR 10.05(6) (k) and the Water Quality Certification Regulations, 314 CMR 9.06(6) (a).

Municipal Separate Storm Sewer System (MS4) or Municipal Storm Drain System or Municipal Storm Sewer System shall mean a conveyance or system of conveyances designed or used for collecting or conveying stormwater, including any road with a drainage system, municipal street, catch basins, gutter, curb, inlet, piped storm drain, pumping facility, retention or detention basin, natural or man-made or altered drainage channel, ditch, reservoir, and other drainage structure that together comprise the storm drainage system owned or operated by the Town of Westford.

Nonpoint Source shall mean any source from which pollution is discharged which is not identified as a point source, including, but not limited to urban, agricultural, or silvicultural runoff.

Owner shall mean a person with a legal or equitable interest in a property.

Point Source means any discernible, confined, and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete, fissure, container, rolling stock, concentrated

animal feeding operation, landfill leachate collection system, vessel or other floating craft from which pollutants are or may be discharged. This term does not include return flows from irrigated agriculture or agricultural storm water runoff.

Redevelopment shall mean the development, replacement, rehabilitation, expansion, demolition or phased projects that disturb the ground surface or increase the impervious area on previously developed sites. Standards for Redevelopment only apply to those portions of the parcel that currently contain alteration by human activities. Redevelopment is further defined by Massachusetts Stormwater Management Standard 7.

Stormwater Authority shall mean the Town of Westford Planning Board. The Planning Board is responsible for coordinating the review, approval and permit process as defined in this bylaw. Other boards and/or departments participate in the review process as defined in Section 147.4 of this bylaw.

Stormwater Best Management Practice (BMP) shall mean a structural or nonstructural technique for managing stormwater to prevent or reduce nonpoint source pollutants from entering surface waters or ground waters. A structural stormwater best management practice includes a basin, discharge outlet, swale, rain garden, biofilter or other stormwater treatment practice or measure either alone or in combination including without limitation any discharge pipe, overflow pipe, conduit, weir control structure that: (a) is not naturally occurring; (b) is not designed as a wetland replication area; and (c) has been designed, constructed, and installed for the purpose of conveying, collecting, storing, discharging, recharging or treating stormwater. Nonstructural stormwater best management practices include source control and pollution prevention measures.

Stormwater Management shall mean the use of structural or non-structural practices that are designed to reduce stormwater runoff pollutant loads, discharge volumes, and/or peak flow discharge rates.

Stormwater Management Permit shall mean a permit issued by the Planning Board, after review of an application, plans, calculations, and other supporting documents, which is designed to protect the environment of the Town from the deleterious effects of uncontrolled and untreated stormwater runoff.

Additional terms that apply to issuance of a Stormwater Management Permit established by this bylaw shall be defined and included as part of the regulations promulgated and, from time to time, amended under section 147.5.B of this bylaw, a copy of which is available at the Planning Board and the office of the Town Clerk. Terms not defined in said regulations or pertinent statutes shall be construed according to their customary and usual meaning.

§ 147.3. Authority.

The Stormwater Management bylaw is hereby established in the Town of Westford, Massachusetts. This bylaw is adopted under authority granted by the Home Rule Amendment of the Massachusetts Constitution, the Home Rule statutes, and pursuant to the rules and regulations of the federal Clean Water Act found at 40 CFR 122.34.

This bylaw shall take effect upon its approval by the Attorney General and publications as provided by Massachusetts General Laws chapter 40, section 32, provided however, that any continuous legally permitted activities in operation on that day may continue.

§ 147.4. Scope and Applicability.

- A. This bylaw shall be applicable to the following activities:
1. Any Subdivision as defined in the Massachusetts Subdivision Control Law (Massachusetts General Laws, chapter 41, sections 81K – 81GG) requiring a Definitive Plan;
 2. Any activities that result in a land disturbance of one acre or greater within the Town of Westford. Land disturbance shall mean any action that causes vegetation clearing (including tree cutting); or a change in the position, location, or arrangement of soil, sand, rock, gravel or similar earth material; and
 3. Any activities that result in a land disturbance less than one acre if the project is part of a larger common plan of development which will disturb one acre or more within the Town of Westford. Plans that do not require approval under the Subdivision Control Law, hereafter referred to as “Approval Not Required or ANR lots”, and meet one or more of the applicability criteria described herein are subject to the provisions of this bylaw and shall obtain a Stormwater Management Permit.
- B. Exemptions: No person who meets the applicability of this bylaw shall alter land within the Town of Westford without having obtained a **Stormwater Management Permit (SMP)** with the following exceptions:
1. Ground disturbances in the course of customary cemetery use and regular maintenance,
 2. Maintenance of landscaping, gardens or lawn areas,
 3. Normal maintenance and improvement of land in agricultural use as defined by the Wetlands Protection Act 310 CMR 10.04 and Massachusetts General Laws chapter 40A, section 3.
 4. Any work or projects for which the required permit applications have been submitted to the Planning Board, Zoning Board of Appeals, and Conservation Commission before the effective date of this bylaw. For proposed Subdivisions, a Definitive Plan must have been submitted to be considered exempt from this bylaw.
 5. Emergency repairs to any stormwater management facility or practice, such that the original design location, size, and technology remain the same, that poses a threat to public health or safety, or as deemed necessary by the Planning Board or its authorized agent.
 6. Municipal roadway maintenance when conducted in accordance with an approved Stormwater Pollution Prevention Plan, prepared in accordance with the

Stormwater Management regulations promulgated under Section 147.5.B of this bylaw, on file with the Planning Board.

C. Coordination with Other Town Permits.

1. No Town Earth Removal Permit, Order of Conditions from the Conservation Commission, Building Permit, Subdivision approval, Special Permit, variance or finding shall constitute compliance with this bylaw. For a project or activity that meets the Scope and Applicability of this bylaw, no work may commence until the site owner or his agent submits a complete Stormwater Management Permit application, the Planning Board issues a Stormwater Management Permit, and the site owner and responsible parties sign and certify that all land clearing, construction, and development will be done pursuant to the approved Plans and Permit.
2. This bylaw is not intended to interfere with, abrogate, or annul any other bylaw, rule or regulation, statute, or other provision of law. The requirements of this bylaw should be considered minimum requirements, and where any provision of this bylaw imposes restrictions different from those imposed by any other bylaw, rule or regulation, or other provision of law, whichever provisions are more restrictive or impose higher protective standards for human health or the environment shall take precedence.
3. In case of conflicting requirements, applicable state statutes and regulations shall be considered the more restrictive or more protective of human health and the environment, and shall take precedence over the Westford Stormwater Management bylaw and the regulations promulgated thereunder. These state statutes and regulations include, but are not limited to, the following documents: the Massachusetts Wetlands Protection Act, the Massachusetts Rivers Act, the Massachusetts Watershed Protection Act, and the Massachusetts Stormwater Management Standards, as amended.

§ 147.5. Administration.

- A. Stormwater Authority. The Planning Board is hereby designated as the Stormwater Authority. The Planning Board, or its agent, shall administer, implement and enforce this bylaw. The Planning Board may appoint the Conservation Agent, Town Engineer, or qualified professional to act as its authorized agent for site inspections and to advise the Planning Board.
- B. Stormwater Regulations. The Planning Board may adopt, and periodically amend, rules and regulations relating to the terms, conditions, definitions, enforcement, fees (including application, clerical, inspection, and/or consultant fees), procedures and administration of this Stormwater Management bylaw after conducting a public hearing to receive comments on any proposed revisions. Such hearing dates shall be advertised in a newspaper of general local circulation at least fourteen (14) days prior to the hearing date. After public notice and public hearing, the Planning Board may promulgate rules and regulations to effectuate the purposes of this bylaw. Failure of the Planning Board to promulgate such rules and regulations, or a legal declaration of their invalidity by a court, shall not act to suspend or invalidate the effect of this bylaw.

- C. Stormwater Management Manual. The Planning Board will utilize the Massachusetts Stormwater Management Handbook, as amended from time to time, for criteria and information including specifications and standards for the execution of the provisions of this bylaw. These include a list of acceptable stormwater treatment practices, with specific design criteria for each. Unless specifically altered in this Stormwater Management bylaw and regulations, stormwater management practices that are designed, constructed, and maintained in accordance with the Massachusetts Stormwater Management Standards and design and sizing criteria in the Stormwater Management Handbook shall be presumed by the Planning Board to be protective of Massachusetts water quality standards.
- D. Actions by the Planning Board. The Planning Board may take any of the following actions as a result of an application for a Stormwater Management Permit as more specifically defined as part of the regulations promulgated as part of this bylaw: Approval, Approval with Conditions, Disapproval, or Disapproval without Prejudice.
- E. Appeals of Action by the Planning Board. The decisions or orders of the Planning Board shall be final. Further relief shall be to a court of competent jurisdiction.

§ 147.6. Permit Procedures.

Permit procedures and requirements, including permit submittals, right-of-entry, fee schedule, and public hearing process, shall be defined and included as part of the regulations promulgated under section 147.5.B of this bylaw.

§ 147.7. Performance Standards.

Criteria for erosion and sediment control and post-construction stormwater management, including stormwater performance standards, shall be defined and included as part of the regulations promulgated under section 147.5.B of this bylaw.

§ 147.8. Waivers.

- A. The Planning Board may in its discretion and after due consideration decide to waive and exempt strict compliance with any requirement of the Town of Westford Stormwater Management bylaw or the regulations promulgated hereunder, where it makes a written finding that such action is:
 - 1. Allowed by federal, state and local statutes and/or regulations;
 - 2. In the public interest; and
 - 3. Consistent with the purpose and intent of the Town of Westford Stormwater Management bylaw and its regulations.
- B. Criteria for granting a waiver shall be defined and included as part of the regulations promulgated under section 147.5.B of this bylaw.

§ 147.9. Enforcement.

The Planning Board or its authorized agent shall enforce this bylaw and resulting regulations, orders, violation notices, and enforcement orders, and may pursue all criminal and civil remedies, including injunctive relief and monetary damages and costs of litigation and attorney fees, for such violations and for abatement and mitigation and compliance actions taken by the Planning Board. As an alternative to criminal prosecution or civil action, the Planning Board may elect to utilize the non-criminal disposition procedure set forth in Massachusetts General Laws Ch. 40, §21D and the Town of Westford General Bylaws Chapter 1.2 A in which case the Planning Board shall be the enforcing person. To the extent permitted by state law, or if authorized by the owner or other party in control of the property, the Planning Board's agents, officers, and employees may enter upon privately owned property for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys or sampling as the Planning Board deems reasonably necessary to determine compliance with a permit issued under this bylaw. Enforcement shall be further defined and included as part of the regulations promulgated under section 147.5.B of this bylaw.

§ 147.10. Severability.

The invalidity of any section, provision, paragraph, sentence, or clause of this bylaw shall not invalidate any section, provision, paragraph, sentence, or clause thereof, nor shall it invalidate any permit or determination that previously has been issued.

Public way shall mean the entire width between the lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel and shall include the entire width of any sidewalk within the lines of such way. In the case of ways established by prescription or concerning which no official layout exist, the edges of the surface of the traveled way shall be deemed to be the lines of such public way.

Driveway shall mean a privately owned access to and from a public way.

Through way shall mean any way designated as such by the Department of Public Works or the Board of Selectmen, as authorized under section 9 of chapter 89 of the Massachusetts General Laws, as amended.

- B. To provide a uniform practice in the design and construction of entrances and exits to properties abutting a public way.
- C. To provide for necessary drainage.

§ 148.17. Applications.

- B. Name and address of the party doing the work
- C. Location of the work area
- D. Attached plan showing details of the proposed alteration
- E. Such other information as the Building Inspector shall find reasonably necessary to the determination of whether a permit should be issued hereunder.

§ 148.18. Standards for issuance of permit.

The Building Inspector shall issue a permit hereunder when he/she finds:

- A. That the plans for the proposed alteration have been approved by the Superintendent of Highways and the Planning Board, to whom they shall be forwarded by the Building Inspector within a reasonable time after receipt thereof.
- B. That the alteration will not unreasonably interfere with vehicular and pedestrian traffic, the demand and necessity for parking spaces, in the means of egress to and from the property affected and adjacent properties.
- C. That the health, welfare, and safety of the public will not be unreasonably impaired.
- D. Driveways should be located to the best advantage with regard to the highway alignment, drainage of the land involved, profile, and sight distance conditions. Unless varied by the Planning Board, driveways shall not be located at the extreme edge (sideline) of property or at intersections or rotaries.
- E. Not more than 2 driveways shall be permitted for any one property. Additional driveways should not be requested unless there is a clear necessity for them. No circular drives are allowed unless there is a minimum frontage of 150 feet.

§ 148.19. Curb cut replacements.

Where private property use has been modified so that an existing curb cut is no longer needed, the Building Inspector, for the promotion of traffic safety and public convenience, may require the abutting property owner to replace the curb at his/her expense. If the abutting owner fails to comply with the order, the Town may do the work and bill the owner for the cost.

§ 148.20. Exceptions.

No permit shall be required under this bylaw for:

- A. Driveways already in existence on the date of adoption of the chapter, except that if any construction or reconstruction of existing driveways is substantially tantamount to a new driveway then this chapter shall be applicable.
- B. Driveways reviewed by any other Town board under other existing chapters, rules or regulations or under site plan review or approval under the subdivision control law.

§ 148.21. Severability.

The provisions of this chapter are severable, and if any sentence, section or other part of this chapter should be found to be invalid, such invalidity shall not affect the remaining provisions, and the remaining provisions shall continue in full force and effect.

§ 148.22. Penalty.

Any person, firm, or corporation violating any provisions of this chapter shall be fined not more than \$300 for each offense.

Chapter 149: Temporary Repairs to Private Ways

[Added 10-15-12 STM Art 13]

§ 149.1 Purpose and applicability.

- A. Pursuant to Massachusetts General Laws Chapter 40, Section 6N, the Board of Selectmen is hereby is authorized to make temporary repairs to private ways, constructed prior to 1955, which have been open to the public for a period of at least six (6) years, out of funds appropriated for said purpose by Town Meeting. In all cases, the entire cost shall be assessed as betterment on those properties which benefit from the repairs. Repair does not mean new construction.
- B. The repairs shall be those required by public necessity, including but not limited to
 - 1. The necessity of providing adequately drained ways so as to reduce ecologically harmful runoff into the Town's brooks and ponds; and
 - 2. The necessity of providing adequate passable ways for public safety vehicles from public ways to residences, Town facilities and resources including access to Town conservation land.
- C. The Board of Selectmen shall make the determination of public necessity.

§149.2 Types of Repairs.

- A. The repairs must be temporary in nature, such as filling, grading, patching and surface coating, and may include such repairs to drainage swales, conduits and structures as are necessary to preserve the integrity of surface repairs to the roadway, and shall not be such as to constitute a reconstruction of the roadway.
- B. The temporary repair shall have a minimum expected life equal to twenty (20) years.
- C. Temporary repairs may be undertaken on a way subject to this bylaw, or to a continuous portion of such way, which portion begins and ends at an intersection or conjunction with another way.

§ 149.3 Petition.

A minimum of seventy five percent (75%) of the owners of property abutting the portion of the way proposed to be repaired must petition for the repair, with each ownership entity counting as one. The Board of Selectmen are authorized to waive this requirement.

§ 149.4 Betterment charges.

- A. The owners of land abutting such way who derive benefit from said repairs shall be assessed betterment charges by the Board of Selectmen. Betterment charges, in an amount of one hundred (100%) of the aggregate cost to plan, prepare and repair the private way shall be assessed on a per lot basis or on the proportion of the lot frontage on the way or portion of the way to be repaired to the frontage of said repaired way or other proportional method as may be required by the Board of Selectmen.

- B. The Town may be considered an abutter if property under the care, custody and control of the Town abuts said way to be repaired.
- C. A cash deposit shall not be required.

§149.5 Status of way.

- A. This bylaw does not confer any obligation or duty on the Town or its agents to either initially place or to thereafter maintain and repair said private ways so that they are reasonably safe and convenient for travel by being free from defects or want of repair.
- B. The making of such temporary repairs to private ways, no matter how often or to what extent, does not constitute an acceptance by the Town of such private ways as public ways, nor does it constitute a way being "maintained and used as a public way" under the Massachusetts Subdivision Control Law.
- C. Any private way repaired under the provisions of this bylaw need not be brought up to full Town standards and may continue to remain a private way. Repaired private ways may be brought to Town Meeting for acceptance as a public way by completing the steps outlined in the Town's Street Acceptance procedure, if any, adopted by the Board of Selectmen which may be amended from time to time, or otherwise as allowed by law.

§149.6 Liability.

The Town, in making repairs under this section shall not be liable for any damages to persons or property caused by negligent repair or maintenance of the private way.

§ 149.7 Indemnity Agreement.

No repair of a private way shall be undertaken until the Board of Selectmen has in its possession agreements executed by at least eighty five percent (85%) of abutting owners on the portion of the way to be repaired holding the Town harmless from any additional damage arising from any negligent repair, and which includes the following provisions:

- A. That the Town assumes no liability to such owners by making the repairs;
- B. § 171.7. Permits, determinations, and conditions. [Amended 05-07-2005 ATM Art. 25]

- A. If the Commission after a public hearing determines that the activities which are the subject of the application are likely to have a significant or cumulative effect upon the wetland values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions.
- B. The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable or cumulatively adverse effects upon the wetland values protected by this bylaw; and where the Commission deems that no conditions are adequate to protect those values.
- C. A permit shall expire 3 years from the date of issuance. Notwithstanding the above, the Commission at its discretion may issue a permit expiring 5 years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work

- A. After public notice and public hearing the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.
